Subject: Re: Magnum Board follow up

the Magnum board job is done and things went well even though the contractor had never used it before. He is now in the process of installing mag bd in other projects. The feed back is that while it was somewhat difficult to cut they were able to expeditiously complete the job. Three rooms are garage and work rooms on ground level. One room is a foyer.

The joints were trimmed with Azek for future removal if necessary, as was all the other trim and baseboard, except for the foyer which is trimmed in wood. The whole job was painted and it looks great. Thank you for youhelp.

Could please pass this on to Dan Armstrong with my thanks and appreciation for his help. I dont have his email address
